# Individual Integrity Packet (IIP) Template

## 1. Objective

*What specific concept or skill are you demonstrating in this assignment? How does AI support or challenge this learning goal?*

---

## 2. Process Log (The "Reasoning Trail")

*Document your journey. Include:*

- **Initial Prompts:** What did you ask the AI?
  - **AI Output Summary:** What did it give you?
  - **Critique:** Where was the AI wrong, generic, or hallucinating?
  - **Revision:** How did you change the output to make it better/more accurate?
- 

## 3. Evidence of SME

*Prove you actually did the research. Attach or link:*

- Primary source citations (Books, peer-reviewed articles).
  - Handwritten notes or mind-maps.
  - Data sets or raw materials used to ground the AI.
- 

## 4. Validation (The "Cold-Check")

*Prepare for an oral defense. Be ready to explain:*

- 
- Why did you choose this specific structure?
  - Define [Key Term X] used in the final output without looking at the AI.
  - What was the most significant change you made to the AI's first draft?
- 

## 5. Statement of Ownership

I, [Student Name], certify that I have verified every claim, citation, and line of reasoning in this submission. I accept full responsibility for the accuracy and integrity of this work.

Signed: \_\_\_\_ Date: \_\_\_\_

---

## 6. Reflection

- What is one thing you learned that the AI failed to mention?
- If you had to do this assignment without AI, what would be the hardest part?
- How did this process change your understanding of the topic?
